THE WAR IN COREA.

Late Advices Per Steamer City of Peking.

THE INITIAL SKIRMISH OF THE WAR.

The Selfish Ambition of the Family of the Queen, Backed by Russian Promises of Assistance, at the Bottom of the Trouble.

SAN FRANCISCO, Aug. 11.—The steamship City of Peking arrived yesterday morning from Hong-Kong, via Yokohama.

Most of the news brought by the Peking comes from Japanese sources. In a telegram from Seoul, under date of July 27, it is made to appear that the Japanese minister brought great pressure to bear on the Corean government for the withdrawal of the Chinese troops from Asan, asserting that, as Corea had been declared a free state, the Chinese troops should be sent out of the country, otherwise, Japan could not rely on the good faith of the Corean government The Japanese minister urged, in addition to the withdrawal of the Chinese troops from Asan, that Corea decline to send annually an ambassador to China, as had been the custom.

The Japanese government received the following communication from its minister at Seoul under date of July 22:

"The Corean government has refused to accept the proposals of the Japanese government, and as it does not appear likely that it will reconsider the matter, it is unavoidably necessary to make fresh resolutions, and thorough preparations have now been made

"The Coreans requested the Japanese minister to withdraw the Japanese troops from the country, and also the proposals made by the Japanese government to the Corean government, on the ground that if Corea adopt Japan's proposals other powers will dispatch forces to the kingdom and make similar demands, thereby embarrassing as well as forcing the Corean government to do their bidding. Corea will make the various internal reforms only after the departure of the Japanese troops from Corea. Corea is undoubtedly instigated by China in this course."

The Story of the Encounter

Between the Japanese and Corean troops before the palace at Seoul is related as follows in the Japan Gazette of July 24:

"Yesterday morning there was a skirmish between Japanese and Corean troops outside the royal palace at 8 o'clock, and the Corean troops, offering resistance, there was a fight for twenty minutes, after which the Coreans were dispersed, and fifty of their arms fell into the Japanese troops' hands"

Another Account of the Skirmish.

Another account of the skirmish brought by the City of Peking is as follows

"The Corean government having given a most insolent reply to the minister's second demand, the minister saw the futility of any longer negotiating with the Corean officials, and intended to go this morning to the palace to communicate directly with the king. Before this the king resolved to call to his aid his father, Tai In Kun, and seek his counsel on the present condition of the country. On this being communicated to the king's father he hesitated, as he feared the Bin family would, on hearing of this, prevent him by violence from going to the palace. The king was at length obliged to ask the Japanese minister for an escort of Japanese troops for Tai In Kun.

Minister Ortori sent an escort to Tai In Kun, and at 8 o'clock Corean troops, under the Bin family instructions, fired upon the Japanese troops, who fired back. The fight ceased in about twenty minutes.

In Kun went to the castle in safety with Mr. Ortori. They had an audience with the king, who backed the minister in connection with his demands, and assured him he had no intention of rejecting them. Tai In Kun was appointed at the head of the government. He will remain at present in the palace.

The Bin family, which is at the bottom of the present trouble, through its selfish ambition, will lose its power, as Tai In Kun is known to be its enemy."

Still Another Account.

Another account says:

"To Mr. Ortori's second demand the Corean government returned an insolent reply. and the castle showed signs of great disturbance. The minister placed himself under escort of Japanese troops, and was going to the royal palace when the Corean troops fired at him. The Japanese troops responded, and the fight was over in twenty minutes, when the minister went to the palace"

The announcement is made in a dispatch from Seoul that the flag of the czar is flying from the Island of Getsubito. The Russian minister has acceded to the request of the queen of Corea and her relatives the Bin family, to give her protection in case of emergency.

A Double-Ended News Censorship.

LONDON, Aug. 10.—The Shang-Hai correspondent of the Central News says that the telegraph line in Corea is controlled by the Japanese in the south and by the Chinese in the north, and that both the Japanese and the Chinese refuse to transmit news dispatches.

It is calculated that China will have 60,000 soldiers in Corea before the close of September.

Japanese Returning Home.

LONDON, Aug. 10.—A dispatch from Paris says that the Mikado's cousin, Prince Komatzu, who has been studying maritime forts in Europe, has left Paris for Havre, en route to Japan, returning by way of the United States.

Fifty Japanese officers who have been studying in France have started for home.

The Japanese Attack Wei-Hai-Wei.

LONDON, Aug. 11.—The Shang-Hai correspondent of the Central News says: "During the absence of the Chinese fleet the Japanese attacked the Chinese at Wei-Hai-Wei on Thursday. They were repulsed at one entrance, and then they tried the other.

Marching on Seoul.

LONDON, Aug. 11.—The Times correspondent at Shang-Hai says that 12,000 Japanese from Frusan and 8,000 from Gensan are marching on Seoul.

TO BE EVICTED.

Striking Pullman Employes Must Move to Make Room for the Families of the New Men.

CHICAGO, Aug. 11.—Vice-President Wycks, of the Pullman company, said yesterday that quarters must be found for the new men at work, and the only way he saw to do it was to evict all the strikers using the company's houses and flats who were in arrears for rent.

He did not know when the process would be put in operation, or at least he had taken no active steps in the direction of wholesale evictions, but it would begin very soon, as the new men desired also to live conveniently to their work

DROPPED TO DEATH.

Another Female Aeronaut Meets the Usual Fate.

NASHVILLE, Tenn, Aug 11.—Madame Loula Randle, an aeronaut of Detroit, Mich., was killed here this afternoon while making an ascension.

The lady had been making daily ascensions at Glendale park, a popular resort, and had met with several narrow escapes. Yesterday she cut loose her parachute while at a great height and lodged in a tree, from which she fell and broke her neck.

The Cost of It.

TRINIDAD, Col., Aug. 11.—It is estimated that the various companies mining coal in this vicinity have paid out $40,000 for deputies to guard their property during the past two months.

During this period the miners would have received $800,000 for work, but owing to their being out on a strike the mines paid out only about $20,000 to laborers the past two months.

A False Report.

DANVILLE, Ill., Aug. 11—The report sent out from here by the Western Associated Press yesterday announcing that the town of Fithian, Ill., had been destroyed by fire, has no foundation in fact. There was no fire at or near Fithian yesterday.

OUIDA has been having a hard time of it since her late financial troubles and the forced sale of her belongings. At last she is more at rest, having found a new home for herself in the Villa Masoni, at St. Aliasio, near Lucca.

THEIR NEW SYSTEM.

So many thousands are already acquainted with this new mode of treatment that it is only necessary to say by this method an equilibrium of the vital powers is at once established and an equalization of the circulation maintained. Thus nature is enabled to throw off the effete matter. Medicine will act like a charm, and health at once ensue, if the case be a curable one.

Their experience in the Great Medical Schools and Hospitals of Europe and this country, together with their extensive special practice, enables them to treat the diseases they make their specialty understandingly and with phenomenal success. They do not claim to cure everything, like some physicians. Bear this in mind. Call and see for yourself. They do not practice deception. They use nothing but the latest and most improved treatment in foreign hospitals—nearly all medicines new

The Greatest of All Gifts—The Power of Diagnosing Diseases.

They know they are the greatest diagnosticians in the world. They have a national reputation for diagnosing the most complicated diseases.

By their keen perception and intuition they are enabled to fathom the most complicated diseases and reveal to the sick the true fountain and cause of their suffering, where other physicians have failed and were groping in darkness.

By their correct understanding of each and every case, they are enabled to cure hundreds of diseases given up by the general practitioner.

CATARRH.—This disease, which is generally considered incurable by the general practitioner and receives only temporary benefit from his remedies, is speedily and permanently cured by their famous Germicidal treatment. They rarely find a case they cannot cure.

Over 10,000 Cured of Nervous, Chronic, Throat and Catarrhal Diseases in Ten Years.—They treat Eye, Ear, Nose, Throat troubles, Ringing in Ears, Catarrhal deafness, Stomach, Liver, Kidney, Bladder and Female diseases, Eruptions, Skin troubles, Epilepsy, Seminal Weakness, Night Losses, Nervous Exhaustion, General and Local Debility, etc. They restore Impaired Vital Energy, Invigorate the Debilitated Constitution, Stimulate the Organic Action, Promote the Circulation and Renew that Vital Energy, the loss of which is the symptom of decay.

What Is It? and How Do They Do It? are Questions Asked by Hundreds of People.—They can refer you to hundreds of persons whom they have treated and cured. If you have been humbugged or badly treated, do not wait for a more convenient season, but come at once and put their wonderful powers to the test. You will never regret it. Remember the date.

Consultation Private and FREE to All.

They will treat you honestly, and positively will not throw out any false hopes nor take your case if they can not cure you. If your case is incurable they will frankly and honorably tell you so; also caution you against spending money for medicines which impostors usually suggest. THERE is nothing in the way of American prosperity but a Democratic administration and a Democratic congress, and the people will dispense with a part of it this fall.

THE situation with the Democrats in congress in the matter of "tariff reform" seems to be an effort on the part of everybody concerned to shift the responsibility for the failure on the other fellow.

THE indications are that the Democratic monstrosity known as the tariff bill will be defeated, and on the strength of it the Oliver Iron and Steel Works people are discussing the feasibility of converting their plant into the largest tin plate plant in the world.

OH! quit, go home and give the people a rest, and let business be resumed under the McKinley act, which is the best, because it is the most systematic tariff bill that ever became a law. Under it new factories were built, the demand for labor was increased, the price of the necessaries of life reduced, except farm products, and the people have come to the conclusion, after their experience with Democratic stupidity, that the McKinley act suits them.

ALL the same, every Democratic member of the house and senate elected to the legislature this fall, in case there are not enough of them to elect MacVeagh to the United States senate, will, in case the Populists hold the balance of power and favor Altgeld for the senate, vote for John P. Altgeld and send him to the United States senate to further disgrace the state and the Democratic party. The only thing that will prove an absolute preventive of this threatened danger is the election of a Republican legislature. Republicans do not produce anarchists, offer no political asylum for them and never elect any of them to office.

THE dickering, and trading, cutting, and trying indulged in by the Democrats in congress to get a tariff bill that will not be so obnoxious as to endanger its passage has entirely dissipated the idea that the tariff is a matter of principle with that party. This was well illustrated by Tom Reed the other day when he heard the conference committee had agreed and that one of the agreements was taxed iron ore and free coal. The ex-speaker said:

"I suppose the house must have won, because we were told that the fight for free coal and free iron was a matter of 'principle,' and the house has gotten one of them. I am glad to feel that we have found out just what 'principle' is, even if it has taken a year to do it. It reminds me,' he added, 'of a decision recently made by a prominent judge. It was read off for the benefit of the court, and when the reading was finished the plaintiff's counsel came up and said: 'That is a very good opinion, except that in the conclusion you give the judgment for the defendant.' 'Oh, that's all right,' was the reply, 'we can easily change that.'"

WHEN a Democrats conscience troubles him and he turns loose on the present Democratic governor of the state there is always a clean confession. The latest person to confess is Dr. J. E. White, of Champaign, who was a visiting member of the state board of charities and whose resignation was asked for by Altgeld's secretary of the board on the ground that he was not in sympathy with the state administration. In his reply to this request Dr. White says.

In the first place, I differ with his (Gov. Altgeld's) judgment most emphatically in his pardon of the Anarchists and his criticism of the supreme and trial courts, State's Attorney and everyone connected with the prosecution of the case. I happened to live in Chicago at the time of their trial and know that the almost unanimous sentiment was then, as it is now, that they received nothing but justice. Secondly I differ with him in his indiscriminate pardoning of criminals from the penitentiary, for example Samuel Ford of this county and the thug from Lincoln, who had not been out a week ere he had commenced his criminal life again. Thirdly, I differ with him in his manner of running our charitable institutions, notably the Kankakee Asylum, in which he replaced a man of national reputation by a third-rate doctor from Chicago, who had to be removed for drunkenness in a very short time, and in every institution over which he has authority in the state, placing men whom he could absolutely control and who would hire no man unless he was an Altgeld man. And last, but not least, in the late difference of opinion between Governor Altgeld and the President of the United States, being an American citizen before I am either Democrat or Republican. I take the side which every patriotic citizen regardless of politics in this country has taken, that the president was right, as he generally is, and the governor was wrong, as he generally is. In conclusion, my resignation is hereby tendered, with the hope that the good work of the state board of charities may go on and in the future the machinery may not be interfered with by the appointment of any person who should be so indiscreet as to criticise the governor. Democratically yours.

Something to Think About.

Suppose the anarchists got control of the government, how would labor be benefited? Business would simply cease under such conditions as anarchy offers and there would be no production and no demand for labor.

Suppose the Populists were to get control of the government how would that benefit labor? As with the anarchists the entire conditions on which business is done would be overthrown and the business world would be in chaos and there would be no demand for labor, because there would be no production. Under their theories not one dollar of capital would dare to put itself where it would employ labor. The laboringman who has allowed his mind to be warped by demagogues and turned in the direction of either of these theories is setting fire to his own best interests. Think a little. It pays to think.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result; and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars in any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Ladies having superfluous hair on their faces, we remove them permanently by one treatment. Blotches, moles, etc., likewise; cancers, tumors, warts, cured by from two to five treatments. Varicocele, hydrocele cured. Rupture cured.

Young Men suffering from errors cured in one or two treatments.

Deafness, There are many cases that can be easily restored. Deformities, club feet, curvature, properly treated.

Lung Trouble. Many cases are curable that have not gone too far. Will say to physicians of your city and county: If you have a patient or relative you wish examined, bring them, as he has no secret in his practice, and will be a pleasure in explaining every mode of treatment necessary.

☞**Young and Middle-Aged Men,** suffering from spermatorrhea and impotency as the result of self-abuse in youth or excess in mature age, and other causes, producing some of the following effects, as emissions, blotches, debility, nervousness, dizziness, confusion of ideas, aversion to society, defective memory and sexual exhaustion are permanently cured by remedies not injurious. He undertakes no incurable cases, but cures thousands given up to die. Remember the date and come early, as his rooms are always crowded wherever he stops.

☞Consultation by letter, but one personal interview preferred. Either may save future suffering and shame, and add golden years to life.

A PROJECT is on foot at Champaign for the construction of a union slaughter house on a vacant lot adjoining the ice and cold storage plant. The idea is to build a model slaughter house, such as is used in Chicago. Something like 60,000 gallons of boiling water is wasted daily at the ice plant, and the proposition is to utilize this in dressing the animals killed. It is also proposed to make a passageway into the cold storage department of the ice plant and transfer the meat to cold storage as soon as it is dressed.

"RUBY'S" CHATTY LETTER

Local Happenings in the Social World Talked About.

Effects of the Torrid Term, and the Local Fads—Summer Dishes.

While the torrid weather of the past week has certainly been very realistically exasperating, bringing a long train of patience and temper-wrecking evils to poor melting humanity, yet it has had some redeeming feature.

Men have been exceedingly profuse in the use of ugly expressions which jar more or less upon ears polite, in regard to stiff collars, neckties, cloth coats, etc., and useless hot weather apparel generally, has been left to hang on hooks in the offices by the married men. The young men, however, have taken advantage of the "heated term" to make themselves look too jaunty for anything, in pink, blue and lavender neglige shirts with ties to match, kid belts, and tan shoes, and have smiled complacency under their becoming wide-brimmed straw hats, while they used numberless fresh handkerchiefs to mop the perspiration, which like the proverbial brook, "flows on forever."

The matrons of most families have patronized the exchanges, the bake shops and fruit stores for table supplies, thus avoiding the kitchen as much as possible. But the ideal summer girl, the end-of-the-century-kind, has reaped all attainable benefits. She, as every one else has, like the little girl in the story, "perspired sweat," but that has not prevented her from looking charmingly cool and attractive in a variety of thin white and delicately colored fabrics, beribboned and belaced for the lawn and porch in the evening, and trim fitting shirt-waists for morning and street wear. Crimps won't stay in, but that is neither here nor there, for plain parted hair is the present style, and sailor hats, with a band to match every dress in color, with the fine tulle veils, make a very pretty and becoming head dress.

Social functions have been limited to picnics, small gatherings of various societies, several having been in honor of girl visitors, of which Decatur has the usual summer portion.

Mrs. W. J. Quinlan has been entertaining Mrs. Byrnes and her daughter, Miss Byrnes, a charming Lexington, Ky., girl, who has received much attention from society people. They have gone to Manhattan Beach, Chicago, accompanied by Mrs. Quinlan, where they will visit the latter's son, Mr. Will Quinlan.

Miss Margaret Roberts had her friend, Miss Jack, of Peoria, with her, and she gave a pretty little party for her to meet Decatur young people.

Mrs. Everett Brown had the Misses Potter from St. Joe, Mo., as her guests. Mrs. Brown entertained a large company of young ladies in her usual perfect style. It is claimed by good judges that Mrs B. is the happy possessor of the most elegant silver, both in quantity and quality, of any lady in the city, much of it being family treasures to which she had fallen heir.

Miss Grace Shellabarger gave a pleasant hot-weather affair in the way of a thimble party. The girls were very lovely and fetching in their dainty mull and muslin frocks, and as they were requested to bring a thimble and needlework, much beautiful embroidery and fancy work was there to be admired.

By the way, a thimble party is a very unique thing when arranged like this: Issue invitations with "Sister, put your thimble on," in one corner. Have a small four-block quilt square for each guest, numbered, writing the number opposite the name on the list. Whoever finishes the square in a given time in the best manner receives the prize. At the last one we knew of each girl was presented with a hand-painted art paper needle-book tied with narrow ribbons. The prizes, of course, must be some of the many articles needful in sewing, not a few of which come in silver and made useful keepsakes.

Afternoon and moonlight picnics are the proper thing these dog days, and are mostly given over to eating and a mild form of love-making.

However, a novelty comes up like the outing of the Psalemas division of the Woman's club, which is nothing unless it is literary. The young women members made themselves representatives of books designated by cards illustrative of the work of some writer, to be guessed by the company. A lady gave an Indian club exhibition by the light of a real camp fire, which combined to add to the pleasure and heat of the occasion. One of the most staid and altogether proper of the members chose the "Heavenly Twins" for her subject. The whole picnic was made up of oddities.

Out-of-door sports continue to find favor in the eyes of pleasure seekers. Camping parties have been numerous, and notwithstanding many have come home disfigured with having come in too close contact with poison vines; and lamed and bruised from the effects of their great efforts in dancing the skirt dance in all its variations, rowing and swimming, to say nothing of catching malaria, there is always another set ready to start out and try their luck fighting flies, mosquitoes and snakes, under hot, leaky tents, on hard cots, eating off of board tables with tin spoons and wooden plates. Self-imposed "roughing it" is without doubt delightful.

Base ball is this season's fad and bids fair to rival the bicycle riding. All the younger part of the society have long since perfected themselves in ball playing and wheel riding, and now the middle-aged people have become infatuated with the fad and regular "night clubs" meet on retired, quiet corners on paved streets, where competent coachers wear themselves out in their endeavors to give instructions in mounting, steadying the wheel, preventing the rail fence movement and taking headers. One lady who is noted for her charities as well as for having the merriest laugh in town, is a pupil along with a banker, a pillar in one of the fashionable churches, a solemn lawyer and his young daughter. It looks now as if the horse raisers of the country will be forced out of business if the mania spreads much more.

The 400 have turned out in full force at all the ball games, and now that the new grounds are opened, the interest is on the increase. Decatur has some good players and the games are above the ordinary and attract the best class of people, both men and women, the women appearing in the smartest sort of toilet.

The camp-meetings too have been well attended. At the Prohibitionist some of the best known women speakers were heard, among them Mrs. Helen M. Barker, a World's Fair lady manager, who led the contest against the dancers at the Midway show. She was also one of the officers connected with the Woman's Dormitory scheme, which never materialized.

These camp meeting workers are very zealous in their efforts to gain converts, but they frequently show their lack of worldly wisdom, as one kind lady did, when she tackled a dapper little reporter of our "esteemed morning contemporary" who puts his faith to the present toppling administration. The lady in question insisted upon the young man stepping up to the front to receive the falling blessings. The reporter smiled his very blandest smile, thanked her and passed on, leaving the good woman to wonder at the hard heartedness of man, yet little dreaming of the enormous saving of the sanctity of the meeting.

One of the most prominent leaders of society has just completed a novel, which will shortly be in print. If the book is as interesting reading as the lady's usual conversation, it will be above the average novel.

Miss Clara Sherwood, a handsome young lady, who will be remembered as a frequent visitor at Mrs. Frank Hayes', has just had a collection of short stories published in London, which promised to have a good run. Miss Sherwood is at present residing in London, and is the wife of Mr. Rawlins of Denver, Col.

Speaking of books, reminds one of the new books at the public library. With few exceptions they are exceedingly well chosen, many being in great demand, "George Ebers' "Cleopatra," and "Social Evolution," being favorites, along with the "Ascent of Man," by Drummond.

When mercury is up in the nineties then the taste turns to ice and iced things of all sorts, and their name is legion. An entire meal, and a most excellent one, too, can be made up of iced dishes. Commence with iced *bullion*, jellied chicken, ham or tongue cooled on ice, sliced cucumbers, tomatoes and onions, covered with crushed ice, with plain French dressing; cauliflower salad, mayonnaise dressing chilled in the ice chest; shaved cabbage, crisped on ice, and covered with chilled cream dressing. Indeed nearly all summer vegetables are nice served as a salad in hot weather.

As to fruit, it has long ago been decided by epicures, that shaved ice and sugar are the only things to serve them with. No melons are palatable without ice.

Custards, whipped creams, water ice, bisque, punches and "ades" of all kinds are the seasonable desserts. As to warm weather drinks, iced tea with lemon comes first, although many people consider coffee much better, either with or without cream, but with sugar and no lemon. Oranges, pineapples and lemons admit of a variety of ways of being converted into cooling drinks. RUBY.

AN OLD TRICK.

Worked on Decatur Gallants by "Mabel"—Badly Fooled.

Yesterday at several of the soda water fountains and at other places where soft drinks are handed over to the cigarette-smoking young gallants, small scraps of paper were dropped where these "would-be's" could readily run across them. They were soft notes asking the finder to meet the signer of the note at the First M. E. corner last evening at 9 o'clock, the notes bearing the signature, "Mabel." One of the finders of these notes was seen this morning, and after some little coaxing he was persuaded to tell the story. He said that from 8:30 to 9 o'clock the young beaux began hovering near that corner, some in the shadows and others in the electric light, but all anxiously waiting for "Mabel." But after waiting until ten o'clock, the young man grew weary of doing guard duty on the First M. E. church corner and departed for a near soda water fountain, where he could drown his sorrow in soft drinks. Should "Mabel" be discovered she will undoubtedly receive many a severe roasting.

Gone to the Convention.

Chief C. W. Devore, of the fire department and W. J. Wayne, of the Sulkeyette Co., left last night for Montreal, Can., to attend the international convention of fire chiefs. Chief Devore is a member of the association and Mr. Wayne goes in behalf of his company, to interest the chiefs of fire departments in the hose wagons etc., manufactured by him in this city. The two Decaturites will stop a day at Niagara Falls and will arrive at the historic city on a steamer, concluding their trip thence down the St. Lawrence river. They will be absent about ten days.

Sold Out.

P. Kemper has sold his grocery at 757 North Water street to James A. Muthersbaugh. Mr. Muthersbaugh is from Springfield. Mr. Kemper has been doing a good business and has many friends and we bespeak for his successor the same good fortune which has been the lot of Mr. Kemper. All persons indebted to Mr. Kemper will please settle same at the store, where his daughter will have the books for the next 10 days.

FIRE AT NIANTIC.

Jacobsen & Beall's Elevator Goes Up in Smoke—Loss $8,000.

Two Wabash Cars Destroyed, and Residence in Danger—The Fire Engine Gave Out at a Critical Time.

The fire fiend appears to have a grip for the small country towns this summer. Nearly every day or night there is a damaging fire in some village, causing the people to hustle and help each other in the effort to save property.

Last night at 10:30 fire was discovered in the engine room at the Jacobsen & Beall grain elevator at Niantic, on the line of the Wabash road, twelves miles west of Decatur, and in a very short time the big frame structure was in flames. The ringing of the bells aroused the people and everybody turned out to fight the flames which raged with great fury. The wind was blowing from the southeast at first, and then veered around to blow from the southwest, thus aiding in preventing several residences from catching fire. Niantic has fire protection in the shape of a hand engine. It did good service for an hour or so at 11:30 it collapsed and was useless. Then general resource was had to the volunteer bucket brigade, which saved the Charles Connaghan residence and the Jacobsen & Beall granary which contained $4,000 worth of wheat.

The elevator and grain office were destroyed, but the office safe, containing books, papers and some cash, was saved. The loss in grain is $4,000 and the building was worth about $4,000. The insurance on grain and building is $4,650. Jacobsen & Beall will rebuild at once, and will go ahead with their business.

Standing on the Wabash sidetrack was a string of Wabash cars. Two loaded with grain were consumed by the flames and several others were scorched before the citizens could push them out of danger. A switch engine was sent out to pull the cars out of the way.

Flying embers set fire to G. D. Ritch's property, and the grain crib belonging to Mrs. Dr. Clark were also ignited. The fire was promptly extinguished with slight damage.

A SCATHING LETTER.

Written to Gov. Altgeld by Dr J. E. White, of Urbana, in Resigning from an Appointive Office.

Dr J. E. White, at Urbana, received a letter Friday from George T. Minor, Secretary of the State Board of Charities, which said in substance that information had reached headquarters that he did not sympathize with the state administration and that he had publicly given expression to his views, consequently if the doctor would send in his resignation as a member of the visiting committee of Champaign county it would be promptly accepted. Dr White did not hesitate to send in his resignation nor did he hesitate to express in his letter to Mr. Minor his opinion of Gov. Altgeld in exceedingly strong and forcible language which cannot be misunderstood. He is one of the prominent believers in Democracy in Champaign county and the way he has taken a fall out of the Illinois chief executive is decidedly interesting. While the governor was making his campaign Dr. White piloted him around Urbana, but he has repented in sackcloth and ashes according to his own story. In his letter he explains wherein he differs with the governor. In the first place he differs with him in the pardoning of the anarchists; secondly, in his indiscriminate pardoning of criminals; thirdly, in his management of the state's charitable institutions, and lastly he says: "Being an American citizen before I am a Democrat, I take the side of every patriotic citizen, regardless of politics, that the president was right, as he generally is, and that the governor was wrong, as he generally is."

BASE BALL.

A Hard Fought Game Won By the Iroquois.

The game yesterday between the Iroquois and Decatur Blues at the Association Park resulted in a score of 5 to 3 in favor of the Iroquois. The two clubs were made up as follows:

Iroquois—Spalding, third base, Dixon, first base; Brandon, pitcher; Hopson, short stop; Starr, right field; Buchart, second base; Gates, catcher; Siep, center field; Boggess, left field.

Decatur Blues—Clark, short stop; Leahy, short stop; Lynch, first base; Dodwell, second base; Gillen, third base; McGee, left field; Bane, catcher; Hasty, center field; Cassidy, right field.

SCORE BY INNINGS.

Iroquois	0	1	4	0	0	0	0	0	5
Decatur Blues	0	1	0	0	0	0	2	0	3

The S. S. A. Alsup, jr., nine met the check boys of Bradley Bros. last evening in a seven inning game and scored a victory by a score of 2 to 1. The batteries were Smith and Cox for Bradley Bros and Stickle and DeHart for the Alsups.

The West End and the old G. W. Jones nines play at the park this afternoon. This promises to be a good game.

PETER MITCHELL will officiate the [illegible] year as one of the district deputies for the Colored Odd Fellows of the state. He is also a member of the grand lodge executive committee.

SHELLABARGER'S WHITE LOAF PATENT DECATUR, ILLINOIS

CIRCUMSTANTIAL EVIDENCE.

The Coils Strengthen About McCauley and J. W. Nichols.

Springfield *Journal:* There were new developments of considerable interest in the preliminary hearing of J. A. McCauley and J. W. Nichols in Justice Dapron's court yesterday. The former is charged with stealing a mare and colt from J. F. Town of Harristown and a buggy from A. G. Bowen of Decatur. These articles with a number of others, it is charged, were placed in Nichols' keeping. From evidence elicited in the trial it was found that both of the men could exhibit a penitentiary record. McCauley has served several terms, and was confined in the Chester penitentiary when Nichols was sent up frow Lawrence county for five years for stealing a team of mules. They became companions during their incarceration and Nichols was let out two years ago. McCauley got out last April and immediately came here and commenced boarding with Nichols. It is charged that McCauley frequently came home with articles of such value that it would hardly be reasonable to suppose that he purchased them, considering that he had been out but a short time and that he earned but very little money. The chain of circumstantial evidence seems very strong against the two men and especially so against McCauley. The court deemed it necessary to bind each man over to await the grand jury's action. The trial consumed nearly the entire day and the room was crowded with spectators.

Dr. W. O. Coffee.

The oculist and aurist of Chicago, Ill., has decided to remain another week in Decatur. Considering the extremely hot weather we have had the doctor has had a phenomenal business here, and parties not interested can scarcely realize the good work among the deaf and blind being done by him here every day, and some of the cures in deafness are very remarkable. He has a new method of treating deafness, very different from the old, and the results of his treatment come quickly, generally the first treatment. Many cases of deafness have visited the city from surrounding sections and have gone home greatly benefited or entirely cured. The Doctor was driving along the street the other day and passed a small boy that was cross eyed; he stopped and inquired who they were and found them very poor, and he gave them a card and told them to come to the St. Nicholas next day and he would operate on him free. The next morning they were there promptly at 9 o'clock and the little fellow and mother were made happy by having his eyes straightened. The Doctor has a very large practice and it is increasing each day, and we advise those that are deaf or blind to consult him before he leaves. He will be here until Saturday, the 18th. He does no work on Sunday.

The Holiness Camp.

At the business meeting at Oakland park Friday afternoon these officers of the National Holiness Camp-meeting Association were elected:

President—Dr. C. J. Fowler, Haverhill, Mass.

First Vice President—Jos. H. Smith, Indianapolis.

Second Vice President—Rev. B. F. Bresee, Los Angeles, Cal.

Third Vice President, M. L. Haney of Illinois.

Secretary—Alexander McLean.

Treasurer—Dr. Joshua Gill.

The usual services were held to-day. Sunday will be a day of special interest The meetings close next Wednesday.

Ho! For Chicago!

In order to accommodate the many friends and patrons of the Illinois Central in Decatur we have decided to sell tickets to Chicago and return Sunday, August 12, at $2.00 for the round trip. Train leaves Decatur at 1:40 a. m., arriving in the city at 7:35. Returning leave Chicago at 9 p. m., giving excursionists the entire day in Chicago. Remember this is not a crowded excursion train and there will be no delays enroute. Everyone is guaranteed a seat. Tickets on sale at city office and at Union depot.

Dust and Murder.

Major E. W. McIntosh was at Enfield yesterday attending a reunion of old soldiers. During the day James Brandis was shot and killed by William Fowler. The murderer was arrested. The Major writes that the dust at Enfield is five inches deep with no street sprinkler in the town.

CAUSING LOTS OF TALK.

Prof. Roche Possesses Remarkable Powers—Amazing Tests.

Prof. Roche, who is justly termed the king of mesmerists, who has caused an epidemic of interest in the science or power at Bloomington, Galesburg and other cities, has appeared twice at the Grand in this city, and already his amazing work of hypnotic illustrations on the open stage in full view of the audience, is the talk of the town. The professor is just like any other man, modest, unassuming and withal a companionable gentleman whom it is a pleasure to meet, to say nothing of the valuable information he cheerfully imparts with reference to the science of mesmerism.

Last night the exhibition of the professor's varied power was fully demonstrated, many skeptics being surprised at the astounding effects produced. Among the subjects were Mr. Gannon, Tommy Thomas, J. H. McCoy, and several others. The professor discoursed on the science at intervals, and easily controlled the subjects, causing them to submit to his will, and bidding them do anything he suggested, sometimes without speaking. Gannon sang, danced, played on a broom for a guitar, shoveled imaginary dirt, pitched hay and fished in an imaginary river, finally falling in and making an effort to swim, when with a snap of the professor's fingers the young man came out from the mesmeric influence to find himself floundering on the floor. Stout as he is, Thomas could not lift an empty chair off the floor. One subject in a cataleptic state, with head and feet resting on two chairs set apart, bore the weight of five men sitting on his stomach.

Professor Roche will appear at the Grand to-night and every evening next week.

Life In Oklahoma.

Farmer Nick Laux, now in Decatur for the first time since he left us ten years ago to go west and grow up with the country, says the people in the vicinity of Guthrie, Oklahoma, are doing pretty well, but are not bragging about it. Crops this year are good, and Mr. Laux on his small place is raising more than he needs. Young Charley is flourishing as a stock dealer and Frank is in a bank. Mr. L.'s two daughters, Annie and Mollie, are married and doing well. There are three grandchildren. Mr. Laux notes with satisfaction the big changes made in Decatur in ten years, and agrees with us that there is no country anywhere better than the Mississippi Valley. He will remain in Decatur several weeks.

Death of Dr. W. Y. Royer.

This morning at one o'clock Dr. W. Y. Royer died at his home in Monticello, aged 58 years. The deceased was the father of Mrs. M. M. Holmes of Decatur, who was with him when he passed away. Dr. Royer formerly resided on Spring avenue in this city, and was once prostrated at the race track. Some years ago he practiced medicine at Blue Mound.

The funeral will occur at Monticello on Sunday at 2 p. m.

THE Y. M. C. A. BOYS

Take Preliminary Steps Towards the Organization of a Century Club.

Last night fourteen Y. M. C. A. members who ride bicycles met at the rooms to take preliminary steps towards the organization of a Century club. The plans were pretty thoroughly discussed, and it was finally decided to organize a club on the principle of the Chicago Century Road club. Another meeting of the enthusiasts will be held next Friday evening, but in the meantime Will Coonradt, Linn Wimmer and John Schmink were appointed to draw up constitution and by-laws. At this meeting officers will be elected and the organization made permanent.

On next Tuesday there will be a run to Springfield and return. This will be a century run and all who make it will become charter members of the new club. The distance to Springfield by road is only about forty-four miles, but the riders will do some riding about the city and if on their return the cyclometers do not register a full hundred miles they will take a run out in the country far enough to complete the record. The riders will make the start from Mayer's restaurant on Lincoln square at 4:15 a. m. and will stop for breakfast at Illiopolis. They will not start on the return trip until 3 or 4 in the evening, in order to avoid the midday heat.

A MEXICAN WAR VETERAN.

Drops Dead on His Farm Near Pana, Ill., Aged 79.

Pana, Ill., Aug. 10.—Abraham Depew, one of the most highly respected residents of Christian county, dropped dead on his farm west of Pana. He was 79 years old and an old Mexican war veteran.

Has Arrived.

We are pleased to announce that N. T. Watson has received and displayed his new and carefully selected line of gents furnishing goods. The stock has been carefully selected. Everything is new, taken from the latest lines of the best factories. The neckwear department is a revelation, a study, a veritable poem of the beautiful. The neckwear designers have outdone themselves this season and Mr. Watson has been able to secure the latest and best. Don't forget the place 229 North Water street.

Thanks.

The members of the Fire Department No. 1, wish to extend their thanks and best regards to A. J. Wood for his generous contribution yesterday afternoon of delicious ice cream and refreshments.

BILL FOR PARTITION.

Public notice is hereby given that in pursuance of a decree of the Circuit Court of Macon county, in the State of Illinois, entered at the June term of said court, A. D. 1894, in the above entitled cause, I, James J. Finn, Master in Chancery of said court, will on Saturday, September 1, 1894, at the hour of 2 o'clock p. m., at the north door of the court house in the city of Decatur, in said county offer for sale at public auction, to the highest and best bidder, the real estate described as follows, to-wit:

The northeast quarter of section 20, township 17 north, range 3 east of the third principal meridian, in Macon county, Illinois, subject to the right of way of the Illinois Central Railway Co., across said premises, and subject to the rights of the present tenant, expiring March 1, 1895. Also lots 11 and 12, in block 3, of the village of Oreana, in said county.

TERMS OF SALE—All cash in hand, but there is a mortgage not yet due for $2,500, with 6 per cent. interest, on part of the land, and the buyer may, at his option, take the land subject to that mortgage and continue it, in which case the amount due thereon will be deducted from the purchase price. Otherwise the full price will be paid and the mortgage will be paid off out of the proceeds of the sale. The land will be first offered in separate tracts and afterwards as a whole, and will be sold in whatever way will yield the greatest sum of money.

THE CRUCIAL TEST.

The Tariff Problem to be Settled To-Day.

A MOST STARTLING PROPOSITION.

To Lay Violent Hands Upon the Tariff Bill, Carry It to the House and Pass It with Senate Amendments.

WASHINGTON, Aug. 10.—To-morrow is looked upon as the time set for the battle royal in the protracted struggle over the tariff bill. To-night there have been numerous conferences on the part of both the friends and enemies of the bill, and the air is full of rumors of plots and counterplots that have for their purpose the safety or the destruction of the tariff measure, over which, for well-nigh a year congress has been wrangling. One of these conferences is said to have been held at the White House, while another, on the part of those interested in the preservation of the house bill, was held at the Arlington, at which Chairman Wilson and Mr. Isadore Strauss, who is a close friend of the president, were present. In an upper room of the hotel another conference was engaging the attention of certain republican senators, aided by ex-speaker Reed, and it is needless to say that this talk boded no good for the success of the tariff bill, which is, if the present programme is carried out, to be put to the supreme test on the morrow.

One of the most startling rumors of a week that has been prolific of reports which is vouched for by a prominent senator to-night and told to a reporter of the United Press, was a plot in process of incubation that meant nothing more nor less than the laying of violent hands upon the tariff bill, and its presentation to the house for the purpose of having that body accept the senate amendments and pass the bill.

It is said the conferees have become possessed of information that leaves no room to doubt that it was the intention of the senate to defeat any report that its conferees may make and then kill the tariff bill outright. The house conferees are determined, according to this story, to defeat this alleged scheme at all hazards, and with that end in view have decided that they must take the bill back to the house and present it to that body for action, regardless of its parliamentary standing or of any of the precedents of the senate or of congress.

There is a diversity of opinion among senators as to the status of the bill. The majority, however, hold that the bill and the report must come back to the house granting the conference and not to the body asking it. In this case the senate granted the conference. It is held, and all the precedents, not only of congress, but of the house of parliament, show that under all forms of parliamentary laws the original bill that went to conference belongs to the house granting the request for the conference.

On the other hand, the house people claim that they have authority for their position, the Reed Manual, which those who have examined into the matter closely say, gives the right to the bill to the body asking the conference. In this case the situation would not be changed, for the senate is the body that asked the first conference.

A careful canvass of the authorities on parliamentary law would appear to uphold the contention of the senate that it alone is entitled to the bill when it comes from conference, and the senate must act upon the measure before it can possibly reach the house. If the senate has really made up its mind to defeat the bill, nothing but a resort to the most desperate measures can get the bill into the house where it might be saved from an untimely death by the acceptance of the senate amendments. Should this be done, its accomplishment would only be secured by a violation of all former practices.

The senators who were informed of this alleged plot in discussing the matter to-night said that if the house attempted to pass the bill in this way they doubted very much if the act would be constitutional, and declared that a remedy would be found by the senate. The bill would, under the conditions here outlined, be signed first by the speaker of the house, after enrollment and would then come to the senate for the signature of its presiding officers.

FIFTY-THIRD CONGRESS.

(First Session.)

SENATE.

WASHINGTON, Aug. 10.—Senator Hill started to-day a two hours' discussion on the status of the tariff bill by a resolution which he offered directing the senate conferees to report to the senate whether they were likely to come to an agreement, and, if not, to report to the senate a disagreement, and also to report the principal items of disagreement, so that the senate might take action thereon. The resolution was offered just after the senate had refused, on a yea-and-nay vote, to go into executive session for the purpose of considering the treaty with China. The vote was 21 to 33—all the republican senators voting "no," backed by the two populist senators (Allen and Peffer), and by five democratic Senators, Blanchard, Gibson, Hill, Murphy and Pugh. The significance of the vote, however, applied to the tariff bill rather than to the treaty.

The Hill resolution was then offered, and Mr. Harris, one of the democratic conferees on the part of the senate, stated that they had encountered serious difficulties and had reached no agreement. The three principal items in controversy, he said, were sugar, coal and iron ore; and he expressed the hope that if these three were arranged an agreement would be reached on all other matters.

He was asked by Senator Sherman, one of the republican conferees, whether the bill was in possession of the senate, and replied, most positively, that it was not. On that statement, Mr. Sherman said that he would object to the present consideration of Mr. Hill's resolution; but he was warned not to do so by a chorus of "No, no," from republican senators, and he withheld the objection. It was renewed, however, by Mr. Gray, and after a long desultory argument on points of order, the vice-president admitted the objection and the resolution went over, under the rule, until to-morrow, when some interesting remarks upon it may be heard from Mr. Vest, another of the conferees, he having expressed himself to-day in favor of the resolution, so that he may have an opportunity of telling all that he knows on the subject and contradicting "the false issues" raised by the newspapers.

Senator Aldrich, one of the republican conferees, made an adroit move to keep the matter before the senate to-day by offering a substitute for Senator Allen's resolution—presented a week ago—to discharge the finance committee from the consideration of his bill "for the relief of the several states of the Union"—the substitute being an instruction to the senate conferees to report a disagreement.

What was then left of the morning hour was dissipated in the argument of points of order on the substitute; and then the senate went into executive session, and at 4.30 adjourned until to-morrow.

During the morning hour a resolution was offered by Mr. Chandler, and went over until to-morrow, proposing an investigation by the committee on privileges and elections of the recent election in Alabama, as to whether it was full, free, fair and honest, and whether it resulted in the choice of a legislature entitled to elect a United States senator, with power to send for persons and papers.

HOUSE.

The session of the house was almost wholly taken up with consideration of the first conference report on the sundry civil appropriation bill. The principle subject of discussion was the appropriation to enable the government to make an exhibit at the Atlanta exposition, which afforded an opportunity for several "bridge - the - bloody - chasm" speeches that were applauded warmly. The vote on the amendment showed that the house, 3 to 1, favored making an appropriation, but wanted it to be in the form of the house bill on that subject.

Public land questions occupied the rest of the day, and without finishing consideration of the report the house took a recess until 8 o'clock, the evening session to be for the consideration of private pension and relief bills.

DUN'S TRADE REVIEW

The Continued Uncertainty About Tariff Legislation

UNPLEASANTLY AFFECTS BUSINESS,

Making Present Indications and Conditions of Comparatively Little Value—The Exhaustion of Stocks Creates Some Business Activity.

NEW YORK, Aug. 11.—R. G. Dun & Co.'s weekly review of trade, issued to-day, says.

With changes every hour in the prospects about the tariff, and a decision expected every day, business has unpleasantly resembling gambling. Orders and purchases have been largely based upon individual opinions regarding the legislative outcome, and a vast amount of business has been deferred because the decision was yet in the future. The accumulating demand, which has stimulated trading and manufacturing within the past week or two represents to a great extent needs which have been postponed waiting for a settlement, but can be postponed no longer. Thus, both the rush of deferred business in many lines and the scantiness of new orders reaching into the future reflect an unnatural state of things which cannot be expected to continue, and, while the volume of business is larger than the existing condition of uncertainty warrants, it is, in a sense, but a shadow of the larger business which should come with a removal of uncertainty.

In such circumstances the present indications and conditions are of comparatively little value, but the startling advance in corn discloses a general belief that the injury to this most important crop has been so great as to affect materially the traffic of railroads, the demand for manufactured products and the cost of meats for the coming year.

Unless the markets deceive and are entirely deceived, the country has to face a real calamity in the loss of something like 500,000,000 bushels of corn, which consumers have to share through the advance of 14 cents in two weeks, and 9 cents since Friday of last week. Neither official or unofficial statements as yet preclude the hope that the loss may prove less serious. But at current prices 1,500,000,000 bushels would cost as much as 2,000,000,000 would have cost a fortnight ago.

Wheat has risen 3½ cents in the fortnight and 2½ cents during the week, although western receipts have been 5,223,128 bushels, against 3,162,694 last year. Atlantic exports are a little stronger, as is natural. Cotton has twice risen and again declined a sixteenth, with increasing prospects of a very large yield, closing without change for the week.

Gold exports have practically ceased, for a time, with the settlements for most of the 900,000,000 pounds of sugar imported within the past two months, and treasury officials are more hopeful, counting upon larger receipts on account of whisky.

Low as the gold reserve is, there appears a slight gain, and with cessation of gold exports, the improvement should be considerable during the fall. Whether under old or new duties, imports and customs revenues will naturally be large for some time after a decision on the tariff question.

There has appeared of late some demand for gold from many interior banks, not in large amounts, but in the aggregate enough to indicate some nervousness of feeling. The volume of commercial loans is increasing, though moderately, but in manufacturing paper less increase appears than might have been expected. The outgo of money to move the crops has hardly made itself felt, and the strengthening of stocks during the week, in spite of crop misfortunes and the disclosures in Atchison, gives some ground for hope that withdrawals of foreign capital may discontinue for the present. The Iron and Steel Manufacturer records a great increase of nearly 30,000 tons weekly, about 11,000 tons less than in April, but 8,000 tons more than a year ago, when the prostration had nearly reached its worst. Prices sustain this view, having changed only in the direction of weakness, and the disappointing demand for finished products is still the main factor. Minor metals are on the whole weaker.

The business in boots and shoes is strong and healthy; though conspicuously confined to medium and low-priced articles, such as 75 cent shoes for men and 55 to 60 cents for women's wear; but shipments from Boston have been, in two weeks, 166,693 cases, against 122,836 last year.

People cannot go naked, even if congress is slow. Demands for textile goods clearly represent exhaustion of stocks and continuing needs for consumption in the main, though there has sprung up quite a speculative business on the possible failure of tariff legislation.

Lower prices in some cotton goods have encouraged larger operations, and the proposed reduction of wages at Fall River is now announced, as yet without clear indication whether it is to be followed by a strike. Woolens for winter go as before, and the opening of spring goods discloses a decline of about 12½ cents in the average from last year's prices, but the goods are not urged by makers nor hungrily sought by buyers.

The sales of wool would have been larger, according to reports from the different markets, if there had been sufficient stocks available, but they amounted to 7,623,400 pounds at the three eastern markets, against 9,220,700 pounds two years ago. Country holders of wool do not at present appear to be anxious to let somebody else speculate on its price, and are said to be keeping back supplies quite generally, although receipts at Chicago were 4,060,051 pounds for the week, against 1,127,099 for the same week last year.

The volume of domestic business through clearing houses is 4.7 per cent. smaller than a year ago, and 22.8 per cent. smaller than in 1892. The earnings of railroads reported for July are 20.7 per cent. less than last year, with a larger decrease on grangers, other western, southwestern and Pacific roads.

Failures for the five weeks ending August 1, showed liabilities of $11,144,713, of which $5,626,594 were of manufacturing, and $5,220,247 of trading concerns.

The failures during the past week have been 251 in the United States, against 394 last year, and 54 in Canada, against 25 last year.

THE ROCK ISLAND WRECK.

The List of the Dead and Cremated Victims Now Known to Number Twelve.

LINCOLN, Neb., Aug. 10.—It was long after daylight before the burning pile at the scene of last night's frightful railroad wreck had sufficiently cooled to allow the gruesome work of removing the debris and search for the victims to begin.

It is now known that twelve persons perished in the flames of the burning wreck.

Everything to-day points to the fact that the train was deliberately wrecked. Officials of the Rock Island will accept no other theory, and have offered a reward of $1,000 for the capture of the miscreants. The fish plates were removed with a crow-bar, which was found with the plates in the tall grass near the burned bridge.

The rail was left in place, so that the engineer was unable to discover the dastardly work. Detectives are already at work on the case. The coroner's inquest begins to-morrow.

The Train Wrecker Arrested.

LINCOLN, Neb., Aug. 11.—The police shortly after midnight arrested a man supposed to be the Rock Island train wrecker. Detective Malone says there is no doubt but he is the man.

Would Have Disastrous Results on Future Settlements.

COLUMBUS, O., Aug. 11.—Secretary McBryde of the United Mine Workers of America said yesterday, when shown a dispatch from Pittsburgh saying that the mine operators there were about to renounce the Columbus wage agreement, by which the great coal miners' strike was settled; that such action would be a plain breach of faith on the part of the mine operators, and would precipitate widespread and long-continued wage trouble in the mining regions again. It would be difficult to induce the men to deal with the operators if the latter did not stick to their agreement.

The trouble in the Pittsburgh region is that in some mines the miners are working for wages below the Columbus scale.

The Relay Bicycle Riders.

OMAHA, Neb., Aug. 10.—The relay bicycle riders arrived in Omaha to-night at 8:12 o'clock, just 26 hours and 56 minutes ahead of the scheduled time. George E. Williams, of Council Bluffs, had charge of the relay from Atlantic, Ia., to Omaha, and the dsstance, about seventy miles, was covered in 5 hours and 17 minutes, with a gain of twenty-six minutes on the scheduled time. H. P. Barret took the president's message to Council Bluffs and ran into Omaha in thirteen minutes. They left immediately, and arrived at Fremont at 10:50 p. m.

Baseball.

The following games were played yesterday:

At Chicago—Clevelands, 2; Chicagos, 1.

At Washington—Washingtons, 4; Philadelphias, 1.

At Baltimore—Baltimores, 12; New Yorks, 9.

At Pittsburgh—Pittsburghs, 9; Louisvilles, 6.

At Brooklyn—Bostons, 12; Brooklyns, 6.

Both Parties Left Families.

WATERTOWN, S. D., Aug. 11.—The Kampeskian, a local paper, created a sensation at Watertown yesterday morning by publishing the statement that Mrs. Frank J. Corey, the wife of the editor and one of the publishers of Public Opinion, a daily paper published here, had eloped with T. B. Bender, a big elevator man of Spencer, Ia. Mr. and Mrs. Corey have one child, and Mr. Bender deserts an excellent wife and family at Spencer, Ia.

Owen Will Carry Woodford County.

LEXINGTON, Ky., Aug. 11.—A poll of Woodford, an adjoining county to Fayette, Col. Breckinridge's home, shows that Owens will carry the county by about 300 votes. Col. Breckinridge arrived here last night, but his wife did not accompany him, as was expected. He will speak at a barbecue in Bourbon county to-day and at the Lexington opera house Monday, for the second time since the Pollard-Breckinridge scandal.

None but Married Men Will be Put to Work.

NEW CASTLE, Col., Aug. 10.—The striking miners have notified the Santa Fe managers that they are ready to go to work, and from reliable information obtained from the superintendent work will commence Monday next.

None but married men will be put to work at first, as the preference of the company seems to be to give work to those that have families to support.

Lightning's Frightful Work.

BASSETT, Tex., Aug. 11.—Nine boys, yesterday gathered under a tree for protection from a passing storm, when lightning struck the tree, killing seven outright and mortally wounding two.

An Air Shaft Burned.

STREATOR, Ill., Aug. 11.—Fire at Kanley, Ill., last night destroyed the air shaft of the Star Coal Co.'s mine. Damage was done to the extent of $5,000 or $6,000.

OF GENERAL INTEREST.

--In the ninth century most of the clothes worn in Europe were made in the monasteries which kept large stocks of ready-made clothing.

—Soap is first mentioned in the ninth century. It was alluded to as in use in Germany forcleansing clothing and as an excellent medicine.

—Oliver Wendell Holmes is spending two hours a day in writing the story of his brilliant life — brilliant with achievement and mirth. Dr. Holmes was born two years before Edgar Allan Poe, though he has survived him by nearly half a century.

—Joaquin Miller is growing on his California ranch a mile of roses. He believes families live too close together; therefore, in place of building one large house he has erected four small ones—one for his mother, one for his brothers, one for his own use, and the fourth for his guests.

—The title president occurs in the Bible: "It pleased Darius to set over the kingdom 120 princes, which should be over the whole kingdom; and over these three presidents, of whom Daniel was first: that the princes might give accounts unto them, and the king should have no damage." Daniel vi., 1-2.

—In the Sierra Madre mountains it is distressingly healthy. Lung diseases are unknown, people live in defiance of all hygienic laws and are rarely sick When cholera reached the mountains some years ago the sick people took a bath—the Mexican cure for all diseases—and promptly got well

—It is with butter as with eggs, the tradesman has subtle distinctions that puzzle the uninstructed mind. An east side butter dealer makes these seemingly inconsistent announcements: "Very best butter, twenty-five cents; do. fine, twenty-two cents; do. good, twenty cents; cooking butter, seventeen cents."—N. Y. Sun.

—At a recent meeting of Kyle Union parochial board, Ayr, Scotland, it was reported that the board of supervision visiting officer was of the opinion that the inmates of the poorhouse were too comfortable and had suggested that if the use of tobacco was stopped and tea-making prohibited the number of male inmates would soon decrease. The members decided not to restrict the privileges.

—A young girl, tall, curly-headed and bright-eyed, sat near the fruit stand of which her father is the owner, in Brooklyn. Charles F. Erwin tried to kiss her and may have succeeded. She screamed. He was arrested, but protesting to Justice Goetting that his arrest was an outrage, for the girl had put her lips in a kissing position, he was discharged with a mild caution to be more careful.

—A French priest, who had usually a very small audience, was one day preaching at the church in his village, when, the doors being open, a gander and several geese came stalking up the aisle. The preacher, availing himself of the circumstance, observed that he "would no longer find fault with his district for non-attendance, because, though they did not come themselves, they sent their representatives."

—Mr. H. H. Dixon has been studying the locomotion of insects and spiders by means of instantaneous photographs. He finds, says Nature, that the limbs move together, in diagonals. In insects the first and third legs on one side move with the second on the other, the antennæ moving with the first leg on the same side. In the case of spiders, which have eight legs, the first and third on one side move with the second and fourth on the other.

—Seasoned timber is but little liable to decay under the influence of a dry atmosphere, and will resist decomposition for an indefinite period when kept totally submerged in the water. The piles of old London bridge, driven 800 years before, were found to be in good condition when the new bridge was erected in 1859, and those which served as the foundation for Trojan's bridge over the Danube, A. D. 105, are said to be still visible at low stages of water. —School and Home.

—There is a good story told of the duke of Northumberland, who, in spite of his vast wealth, is very unaffected and simple in his life. Whenever he travels on a railway he usually takes a third-class ticket, to the indignation of the railway officials. Upon a day they determined to break him of this frugal habit, and they filled his compartment with chimney sweeps carrying bags of soot. When the duke arrived at his destination he took the sweeps to the booking office and bought them each a first-class ticket back again and put one in each first-class carriage sacks and all.

—A licensed organ grinder and his grizzled old collector illustrated the other day how the law against street begging is disregarded and the license to grind out music is abused. The grinder was as sturdy an Italian as ever said stand to a true man in the mountains of Sicily, while his collector was the wrinkled, white-haired counterpart of old Gobbo. As the grinder ground, the old man held out his hat to passers-by and capered about in feeble fashion to catch the eyes of the indifferent, while the grinder directed him now and again with a rough word. Then when the grinder shouldered his instrument and trudged off, the old man followed slowly half a block behind, pausing now and then to engage in unabashed beggary, getting a penny from a boy in a smutty apron and a banana from the trundler of a push cart. The two kept up this little game for many hours, as they have done for months and perhaps for years past. The old man has an ideal face and figure for the business, and he ought to command good wages.—N. Y. Sun.

Salesman—Well, son, what do you want?

Little Boy—Got any lamp chimneys?

"Yes. What kind?"

PERSONAL AND IMPERSONAL.

—The recent reduction in price of aluminium has called renewed attention to the possibilities of the use of aluminium-bronze castings for purposes in which the strength of forged steel without its liability to corrosion are essential. Its price should now be not much above that of ordinary gun bronze.

—Every good cook is careful to dispose at once of the water in which meat has been washed. Only a very few hours are necessary to change it into a foul-smelling liquid if the temperature is suitable. This change is due to a little plant called bacterium termo. A drop of this putrid material under the microscope reveals many thousands of them, acting under a peculiar vibratile motion.

—Queen Victoria speaks ten languages fluently. The queen's granddaughter-in-law, the German empress, is also clever as a linguist. She surprised her guests at a recent court entertainment by talking Norwegian to one of them who came from that country. She plays the violin very well, and when she and her husband manage to get a quiet evening together, they generally devote it to music.

—"I have read somewhere," said an early riser, "that we don't eat hash as much as we did, and I have no doubt that is true, but we must still eat some, for I hear occasionally, as I take my morning stroll, issuing out of basement windows the familiar sound of the chopping knife—a sound, I will add, not unpleasant to me, for while hash may not be an extremely fashionable dish, I am free to say that good hash I like."—N. Y. Sun.

—Dvorak's negro symphony, which is made up of negro melodies and which he wrote while rusticating last summer at the little Bohemian settlement at Spillville, Ia., has been enthusiastically received in London. The great composer says that in all that relates to melody and to temperament the negroes are natural musicians, but that it will take many generations of culture to develop their intellects to the point of appreciating the higher and larger forms of music.

—Daniel Webster once sat for his portrait to the late G. P. A. Healy and the senator's remark when he surveyed the completed picture became one of the artist's favorite anecdotes in after years. "I think," said Webster, as he looked at his counterfeit presentment, "that is a face I have often shaved." Healy found Andrew Jackson a disagreeable and unwilling "subject," and he compensated himself by painting Old Hickory with absolute fidelity to nature, not glossing a single defect. The portrait gives Jackson an ugly, savage and pallid face.

—Sometimes a man who wants to stop a street car snaps his fingers at the driver or the gripman. It seems as though the gripman would be exasperated by that, but he doesn't appear to be. Some people lift a hand high in the air and hold it there, and some people wave an umbrella or a cane; but the great majority of people have discovered that for all practical purposes in stopping a car a toothpick is as good as a fence rail. All that is necessary is to catch the driver's eye. It isn't necessary to shove a house on the track in front of him.

"A LITTLE NONSENSE."

—The childish miss resents a kiss and run the other way; but when at last some years have passed, it's different, they say.

—How doth the little summer girl

—Chicago Inter Ocean.

—"My dear," said a fond wife, "when we were engaged I always slept with your last letter under my pillow." "And I," murmured her husband, "I often went to sleep over your letters."

—An Edged Temper.—O'Kief—"How did Bill contract that terrible habit of swearing?" McEll—"He shaves himself, and his wife has corns, and there is only one razor in the house."—Brooklyn Eagle.

—Overheard in the Chicken Yard.—"I don't see, Chickabiddy," said the bantam, "why you stand up for that spring chicken. He's awfully tough. You're not his mother." "No, but he's one of my set," said Chickabiddy.—Judge.

—Beauties of Advertising.—Fair Visitor—"So you have really decided not to sell your house?" Fair Host—"Yes. You see, we placed the matter in the hands of a real estate agent. After reading his lovely advertisement of our property, neither John nor myself could think of parting with such a wonderful and perfect home."—Pittsburgh Bulletin.

—During the rehearsals of "Romeo and Juliet" at the London Lyceum, Mrs. Stirling, who is the most venerable of actresses, took occasion to remark that the nurse was not necessarily old, that she should be represented as middle-aged, etc., and she appealed to Mr. Irving. "My dear Mrs. Stirling," said the manager, with delicate satire, "you may make the nurse just as youthful as you can."

—Ferocity.—Spatts—"I tell you, Wally Weams is a perfect demon when he is awoused!" Sapsmith—"Iwantahknow!" "Yaas, bah Jawve, he is! The othah night he came home unexpectedly and caught Algy Spoonah kissing his wife, and flew at him like a tigah. He stwuck Algy in the mouth with his glove thwee times, bwoke his umbwella and cwied that he hoped to goodness it would wain weal hahd as he was going home!" "My stahrs!"—Truth.

—A well known professor of archæology at Harvard was recently talking with a junior about the wonders of this wonderful land. "I wish you could see our town of Pokerville, professor," said the youngster; "it is a most interesting town—only twenty years old and with fifty thousand inhabitants." "Ah—yes—very interesting, no doubt," replied the professor, dryly; "but, strange as it may seem, I should myself prefer a town fifty thousand years old and with twenty inhabitants."

The Deaf and Blind

Are coming to Decatur from all sections to consult

DR. W. O. COFFEE,

The Eminent Oculist and Aurist, and his Staff.

They are made to see and hear and they go home and tell others of the great work this man is doing among us, and so the crowd increases with each week and the parlors of the hotel are crowded every day, and finding it impossible to get through this week, the doctors have decided to remain at the St. Nicholas hotel, Decatur, until

Saturday, Aug. 18.

Send word to your friends and tell them to come and see me. I will refer them to some cases cured that suffered exactly as they do. Remember, if you are not able to pay now we will give you plenty of time to pay us. The blind restored to sight, the deaf made to hear, cross eyes straightened in one minute. Catarrh cured quickly and permanently; treats all diseases of the eye, ear, nose and throat. Consultation free. Hours from 9 to 4 and 7 to 8.

NEW TREATMENT FOR DEAFNESS

More Evidence that Dr. Coffee Can Make the Deaf Hear.

It is but a few weeks since Dr. Coffee opened his office in the Harper House, but during that time he has clearly shown the citizens of Rock Island that he can cure any disease of the eye, ear, nose or throat. Many cases have come to him that were of years standing, the sufferers had treated with all the well known specialists, and found no relief. Many of them had given up, and doubtless would have been past recovery had not Dr. Coffee come here. But, as the old saying goes, and it is a true one, "A drowning man will catch at a straw," so these people went to Dr. Coffee. The majority of them went more through idle curiosity than anything else, but after meeting the doctor and becoming impressed with him, they decided to give him another trial. In every instance he has helped the patients, and those who are not already cured, are on the road to recovery.

A typical case of this kind comes to our mind now. It is a case that has been to consult the best eye and ear men in Chicago, and each of them said that the boy was incurable and could not be benefitted by any one, and the father and mother had given up all hopes of this boy ever being restored to hearing and speech, until two weeks ago when they were persuaded by their neighbors to take the boy to see Dr. Coffee, as it would do no harm, or cost anything for consultation. The case we refer to is the son of Joseph Scherer, of Pre-emption, a wealthy farmer, and known in town. His son is now 15 years old. When he was a little baby 2 years old he gradually grew deaf, and in six months he was so deaf he could hear nothing and has not been able to hear since, and, therefore, never learned to talk. When he came to Dr. Coffee he could hear absolutely nothing in one ear and just hear sounds in the other. The boy stayed in Rock Island one week and boarded with B. F. Knox, and in six days' treatment Dr. Coffee restored the boy's hearing so that he could hear an ordinary conversation three feet away in both ears. This, we think, is one of the most remarkable cures of deafness ever made, and gives a little idea of the wonderful work being done by Dr. Coffee at this place. He will be here until Saturday, April 14.

Miss Anna Magner, of 308 West Knox street, Galesburg. Eyes have been crossed since a child. Was straightened in one minute by Dr. Coffee without pain or chloroform. Eyes are now perfect.

Lucien Warren's son that works on the Mail in this city was cross eyed since 5 years old and his eyes were straightened by Dr. Coffee in one minute at the Union Hotel.

Mrs. Jonson, landlady at the stock yards Hotel, was deaf in one ear for 20 years and steadily improved under Dr. Coffee's treatment.

Miss Emma Peterson, of Victoria, was cross eyed for 10 years and had them straightened by Dr. Coffee at the Union Hotel.

Mrs. L. M. Bartlett, of Rio, says: I have been growing deaf for several years and also losing my sight. Dr. Coffee's treatment benefitted my sight and hearing immediately, and I recommend all persons suffering with deafness to go and see him.

John Richards, a young man 24 years of age, a carpenter in this city, has been growing deaf for two years, had constant noises in ears and suffered with catarrh all the time. Was completely relieved in three days by Dr. Coffee at the St. Nicholas hotel. He recommends all deaf people to go and see him.

Albert Jones, living 6 miles out from the city, says: Dr. Coffee operated on my son for cross eyes last week and they are perfect now. The operation only required one minute and was without pain and I took him home without a bandage.

T. L. Johnson of Warrensburg had been deaf for five years with chronic catarrhal deafness. Had constant noises in his ears, stopping up of the nose and dropping of mucus in his throat; had been treated by oculists in Springfield and St. Louis with no benefit. Called on Dr. Coffee at the St. Nicholas last week and was treated twice a day for three days and in that time his hearing was restored more than as good again than before. He says the treatment is new and entirely different from anything he ever saw before and gives immediate benefit. If you are deaf go and see Dr. Coffee.

Mrs. Henry Notthalf, 924 East Wood street, says: I have suffered for years with a very severe throat trouble and enlarged tonsils and abscess and stopping of the nose and Dr. Coffee gave me immediate relief in one treatment.

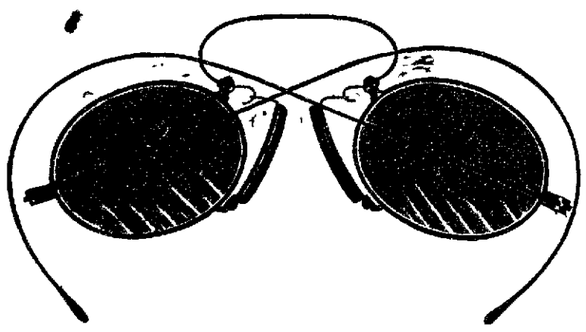

Thos. J. Alexander of Bement, Ill., says: I have been deaf and gradually grew worse for 10 years until I could hear only with a speaking tube. I have been treated by several Oculists and Aurists with no benefit whatever until I called on Dr. Coffee at the St. Nicholas last week and in 3 days he restored my hearing at least one third. His treatment is new and something different from anything I ever saw.

James W. Cameron, of Harristown, had very severe nose trouble that has stopped up his nose for 2 or 3 years, was relieved by Dr. Coffee at the St. Nicholas Hotel in five minutes and makes him feel like a new man.

Joseph Tillman, 735 East Wood street, almost completely deaf in one ear and was relieved immediately by one treatment with Dr. Coffee at the St. Nicholas.

Mrs. W. H. Brooks of Macon, whose husband is one of the leading men of that section, says: I have treated with several oculists and aurists and spent a great deal of money and had given up all hope of being cured until I called on Dr. Coffee Monday. His treatment made me hear one third better the first time.

A large crowd will be in attendance, as an excursion of not less than eight cars will be run from Peoria, one of eight cars from Danville, eight cars from Champaign and ten cars from Decatur. The Decatur excursion will be accompanied by Goodman's band, and more than likely the Danville people will bring a band. The Knights of Father Matthew of Peoria will be in attendance, and will give a sword drill. Dinner and supper will be served on the grounds of the church by the ladies of the parish.

THE G. L. C. Club gave a lawn sociable Friday evening at the home of Miss Maude McCune on South Water street. The house was tastefully decorated with lanterns and the club colors, which are yellow and blue. The mandolin orchestra furnished music. Delicious refreshments were served. The members of the club are Misses Rosa Bachrach, Mollie Steinbach, Ina and Nora Graham, Maud McCune, Pauline Hambecht, Margaret Weifel, Lucy Hart, Nora Connel, Hattie Bachrach of Chicago, and Evelyn La Vene of St. Louis.

THAT bad boy from Sunnyside addition got in his work again yesterday afternoon when Logan Curtis appropriated L. E. Foster's surrey and somebody's five-gallon can of gasoline. He drove off to W. F. Jacobs' grocery store on South Webster street, where he offered the gasoline for 25 cents. Jacobs held the boy until a policeman arrived and the facts came to light. Logan is the eight-year-old boy who stole two rigs on Sunday, July 29, from Mr. Wray and Mr. R. T. Davis and was caught in Riverside Place. The boy was sent home.

HYPNOTISM and mesmerism are being discussed generally about the city just now because of the entertainments being given at the Grand by Prof. Roche, whose power over young and old is something wonderful He traveled for awhile with Sandow, the strong man, and could handle him like a kitten. If you are a skeptic see Roche's work at the Grand during the engagement.

L. S. KILBORN, editor of the *Herald* at Marshall, whose property was destroyed by fire recently, was in Decatur to-day.
